Overhead Crane

Foundry Overhead Crane

[Foundry Overhead Crane](#) is mainly composed of bridge, crab, connecting traverse, trolley mechanism and electric part. The main hook employs the constant-spacing connecting traverse as the load handling device to hoist steel ladle and the auxiliary hook acts in concert with the main hook to accomplish pouring of molten steel slag, and other auxiliary hoisting. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

Advantages of Foundry Overhead Crane

- For heavy work
- Dedicated to steel plants
- Start and stop running smoothly
- Safe and reliable driving, long life
- High quality and competitive price

Specification of Foundry Overhead Crane

tem	QDY	YZ
Loading capacity	5 ~ 75t	75 ~ 350t
Lifting height	customized	
Lifting speed	Varies with a lifting capacity	
Span	10.5 ~ 31.5 m	15 ~ 38 m
Lifting mechanism	Winch trolley	
Working-class	A7/A8	
Working temperature	-20 ~ +60 °C	
Power supply	AC-3Phase-220//230380/400/415/440V-50/60Hz	
Control voltage	DC-36 / 48V	
Motor protection class	IP54 IP55 IP65	
Control way	Cabin, wireless remote, pendant push button
