Overhead Crane

Grab Bridge Crane

The lifting capacity of [Grab Bridge Crane](#) is about 5-25 tons. It is widely used in power stations, warehouses, workshops, and ports for loading and unloading scattered objects. Grab bridge cranes are mainly used for medium to heavy lifting work. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

Advantages of Grab Bridge Crane

- Mainly used for hoisting 5t~20t things, and can also be customized according to customer needs;
- The main beam is optimized by computer design, with good performance and light weight;
- Compact structure, high lifting height;
- Large span;
- Widely used in workshops, metallurgy, warehouses, assembly workshops, etc.

Specification of Grab Bridge Crane

Item	Unit	Result
Lifting capacity	ton	5-25ton
Lifting height	H(m)	10-26m
Span	m	10.5-31.5m
Hoisting speed	m/min	40.1-48.6
Trolley speed	m/min	87.3-113
Working grade	/	A6
Working environment temperature	°C	-25~40
Power source	/	three-phase 380V 50HZ
Control mode	/	cabin control/remote control
