Overhead Crane

Rail Mounted Overhead Crane

[Rail Mounted Overhead Crane](#) is a kind of light crane, usually used together with electric hoist, widely used in steel plants, cement plants, power plants, mining industry, food industry, chemical industry, shipyards, stone yards and warehouses and other places, the scope of use widely. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

Advantages of Rail Mounted Overhead Crane

- Lightweight structure, convenient installation and maintenance;
- Widely used for hoisting in different places such as factories, warehouses, stockyards, etc.;
- Reasonable structure and strong carrying capacity;
- Safe and reliable operation;
- Low maintenance cost and long service life.

Specification of Rail Mounted Overhead Crane

Mechanism		Item	Unit	Result	
Item					
Lifting capacity			ton	5-50ton	
Working grade				A3-A5	
Span			m	5-40m	
Working environment temperature			°C	-25~40	
Traveling mechanism	Working speed		m/min	20-75	
	motor	Type		YZR160M2	
		Power	kw	2*0.8	2*1.5
		Rotational speed	m/min	1380	
Lifting mechanism	Lifting speed		m/min	8/0.8(7/0.7) 3.5(3.5/0.35) 8(7)	
	Lifting height		H(m)	6 9 12 18 24 30	
	Traveling speed		m/min	20 30	
Working system			A3-A5		
Power source			380V 3PH 50HZ
