## Gantry Crane

### Semi Gantry Crane

[Semi gantry crane](#) combines the advantages of the gantry crane and the bridge crane with a unique design. It is divided into two types: single beam semi-gantry crane and double beam semi-gantry crane. One end moves on the elevated track, and the other end moves on the ground track. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

### Advantages of Semi Gantry Crane

- High operating value
- Can meet the specific needs of customers
- Large lifting range
- It can be operated indoors or outdoors with a wide range of applications

### Specification of Semi Gantry Crane
