## Gantry Crane

### Shipyard Gantry Crane

[Shipyard gantry crane](#) is a type of gantry crane. It has the characteristics of large lifting capacity, large span, multi-function and high efficiency. It is often used for step-by-step transportation of ship body, butt joints, and aerial or in-situ turns. The structure of the outriggers and the main beam is box-shaped. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

### Advantages of Shipyard Gantry Crane

- Novel structure and easy to use;
- It is a rotatable lifting tool, which increases the workplace and has high work efficiency;
- The main beam structure is box-shaped, with good sealing and long service life;
- Use high-quality steel, light weight, and low wheel load.

## Specification of Shipyard Gantry Crane

Main Technical Parameters	
Lifting capacity	15-1200t
Wheelbase	6 -22m
Span	6 -20m
Travelling speed	0-20m/min(full load)
	0-40m/min(no load)
Lifting speed	0-1m/min(full load)
	0-3m/min(no load)
Operation mode	Cabin / remote control
