## Gantry Crane

### Truss Gantry Crane

Truss Gantry Crane is a light crane used in places with strong winds. It has the characteristics of light weight, small carrying capacity and strong wind resistance. Its cost is lower than that of box gantry cranes and it is cost-effective. [Truss Gantry Crane](#) is suitable for outdoor warehouses or tracks for handling and lifting work, and can also be combined with multiple lifting devices for special operations. Zhonggong [cranes factory](#) can provide you various cranes with satisfied service.

### Advantages of Truss Gantry Crane

- Compact and stable structure
- Light weight but strong wind resistance
- Beautiful appearance, stable performance
- Convenient operation, easy maintenance, safe use
